**How We Will Calculate Your Balance.** We use a method called “average daily balance (including new purchases).”

**Loss of Introductory APR:** We may end your introductory APR and apply the Penalty APR if you make a late payment.

**Variable Rate:** The APR and corresponding monthly periodic rate may increase or decrease. The APR is subject to change quarterly on the first day of the billing cycle to reflect any change in the Index and will be determined by the Prime Rate as listed in the "Money Rates" section of The Wall Street Journal on the first day of each quarter (January, April, July, October), to which we add a margin. The APR will never be greater than 18.00%. Any increase in the APR will take the form of additional payments shown as Total Minimum Payments on the statement. If the Index is no longer available, the Credit Union will choose a new index which is based upon comparable information.

**Accuracy:** The information about the costs of the card is accurate as of 02/16/25. This information may have been changed after that date. To find out what may have changed, contact the Credit Union.

**REWARD POINTS** are not transferable to non-reward credit cards.

**Annual Percentage Rate (APR)** is based on your credit history and other credit factors.
